

Wildwood Middle High School 21st Century

This year we have been up to a great deal. This past summer we took our first ever field trip to the Orlando Science Center. In addition we had the Sumter County Sheriff's Department present to the students about "Knowing the Law". We are also participating in the "Art in the Capital" art competition.

Back for another year are the Villages Orchestra and Chess Club adult volunteers. And finally this year we have a special emphasis on improving our student's math skills this year and have secured outside adult and student volunteers to assist.
