

# ROBOTICS ENGINEERING SUMMER CAMP

At Lake-Sumter State College's Robotics Engineering Summer Camp, middle and high school students from Lake and Sumter Counties will discover breakthrough technologies in robotics and immerse themselves in learning new skills needed for today's workforce.

This 12-day experience (July 10 through July 27) integrates all aspects of STEM by focusing on electronic technology, 3D printing, control engineering, computer science, mathematics, and programming.

**JULY 10 - 27**

**9AM - 3PM**
