School Grades History	2017-18: B 2016-17: B 2015-16: B 2014-15: B 2013-14: B
2019-20 School Improvement (SI) Information*	
SI Region	Southwest
Regional Executive Director	Tracy Webley
Turnaround Option/Cycle	
Year	
Support Tier	NOT IN DA

ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Sumter County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement

SSMS will teach with commitment and conviction to provide all students with opportunities to achieve college and career success in a global community through rigorous instruction, forward thinking, and research based strategies that will equip each student with the skills necessary for college, careers, and life.

Provide the school's vision statement

Inspiring all students to persevere and achieve lifelong success.

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Camp, Joel	Principal	<p>The school leadership team consists of the principal, assistant principals, guidance counselors, department level chairs, team leaders, and support staff. The roles and responsibilities of the school leadership team include establishing and maintaining a positive, effective learning environment, building a cohesive team, effectively communicating with other teachers and providing support for teachers through discussions, meetings, mentoring services and professional development training. Meetings are held on a weekly basis. Varying issues are discussed and decided upon during these meetings. The leadership team is then responsible for sharing the information with teachers to keep them aware of any changes and all decisions made by the leadership team. The leadership team also lead team, grade level, and/or department meetings. During these meetings, updates are discussed, and PLCs are conducted to focus on the school's latest data and student academic needs.</p>
Wyatt, Jennifer	Assistant Principal	<p>The school leadership team consists of the principal, assistant principals, guidance counselors, department level chairs, team leaders, and support staff. The roles and responsibilities of the school leadership team include establishing and maintaining a positive, effective learning environment, building a cohesive team, effectively communicating with other teachers and providing support for teachers through discussions, meetings, mentoring services and professional development training. Meetings are held on a weekly basis. Varying issues are discussed and decided upon during these meetings. The leadership team is then responsible for sharing the information with teachers to keep them aware of any changes and all decisions made by the leadership team. The leadership team also lead team, grade level, and/or department meetings. During these meetings, updates are discussed, and PLCs are conducted to focus on the school's latest data and student academic needs.</p>
Field, Angeline	Other	<p>The school leadership team consists of the principal, assistant principals, guidance counselors, department level chairs, team leaders, and support staff. The roles and responsibilities of the school leadership team include establishing and maintaining a positive, effective learning environment, building a cohesive team, effectively communicating with other teachers and providing support for teachers through discussions, meetings, mentoring services and professional development training. Meetings are held on a weekly basis. Varying issues are discussed and decided upon during these meetings. The leadership team is then responsible for sharing the information with teachers to keep them aware of any changes and all decisions made by the leadership team. The leadership</p>

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year’s low performance and discuss any trends

The lowest performance was the lowest 25th percentile in ELA. Contributing factors include students being several grade levels behind, having decoding and comprehension difficulties, and struggling in integration of knowledge and key ideas and details, as well as having a lack of background knowledge. Trends show that the lowest 25th percentile in ELA is always the lowest score for SSMS.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline

The data with the greatest decline from the previous year is Science achievement which decreased by 9%. Factors that led to the decrease include students having reading deficiencies and being several grade levels behind in performance.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends

The greatest gap when compared to the state average is the lowest 25th percentile in ELA. It was 5% below the state average. Contributing factors include students being several grade levels behind in performance, having decoding and comprehension difficulties, and struggling in integration of knowledge and key ideas and details, as well as having a lack of background knowledge. Trends show that the lowest 25th percentile in ELA is either at or below the state average over the past years.

Which data component showed the most improvement? What new actions did your school take in this area?

The lowest 25th percentile in Math and Social Studies achievement showed the most improvement. They both increased by 3%. New actions that were taken include incorporating math skills using iXL during 6th period daily and the Social Studies department did a more thorough integration of the ELA strategy of marking the text as well as an intensive review.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

One area of concern is the number of students scoring a Level I on one or more of their achievement tests. This population represents 22% of our total student body.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year

1. Increase student achievement in Math, Science, ELA, and Social Studies
2. Increase learning gains with our targeted ESSA subgroup (Students with Disabilities)
3. Increased attendance through our positive rewards system for perfect attendance
4. Decrease in the area of discipline by increasing positive behavior through the school-wide PBIS program
5. Increase learning gains for our bottom 25th percentile

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	ELA School Grading Component
Rationale	The ELA achievement decreased by 1% from 2018 to 2019 results and is only 5% above the state average. The lowest 25% in ELA decreased by 5% from the previous year and is the lowest grading component of all areas measured. Intensive remediation and supplemental support will lead to increased ELA achievement and overall success in other academic areas.

State the measureable outcome the school plans to achieve	SSMS students will improve the ELA school grading component from 52% in 2018-19 to 62% in 2019-20.
Person responsible for monitoring outcome	Joel Camp (joel.camp@sumter.k12.fl.us)
Evidence-based Strategy	Students will use AVID strategies throughout all of their classes. Students scoring a Level I in ELA will be enrolled in an Intensive Reading class. The Reading coach will provide resources and guidance to help teachers focus on specific skills. Teachers will be trained and use Core Connections writing strategies to increase proficiency in text-based writing and mapping of the text. Teachers will use Curriculum maps and timelines to ensure all ELA standards are taught. Increasing rigor and providing additional texts will create greater challenge for students in addition to the Springboard curriculum. Writing Rubrics will be discussed with students and reviewed after each formative assessment. The ELA department will meet to participate in data chats, as well as ELA teachers will use data to help students chart their progress on formative assessments, including their iReady and Achieve assessments throughout the year. ELA teachers will collaborate with other content area teachers to share the writing rubric and assist in "writing to learn" across the curriculum. ELA students will use Achieve 3000 to work on reading comprehension and increase their Lexile levels. FSA, iReady, Achieve 3000, and AR testing data will be used to reform flexible grouping each time data is received.
Rationale for Evidence-based Strategy	We believe that the use of these strategies will allow the students at SSMS to show increased achievement due to the supplemental support they will receive through Intensive Reading classes, Achieve 3000, and individual and small group support in the classroom. These strategies have proven successful in closing the achievement gap. These strategies will be monitored through data chats with students and teachers. Data chats will enable students and teachers to see the progress being made towards learning goals.

Action Step	
Description	<ol style="list-style-type: none"> 1. Educators will make consistent use of data throughout the school year to improve instruction. 2. Students will monitor their progress in achieving learning goals throughout the year using formative assessments. 3. Teachers and leadership team will monitor fidelity of these interventions.

Person Responsible Joel Camp (joel.camp@sumter.k12.fl.us)

#2

Title Mathematics School Grading Component

Rationale Based on the data, the school wants to continue the trend of increasing mathematics achievement, increasing lowest 25th percentile learning gains, and increasing overall learning gains. Intensive remediation and supplemental support will lead to increased mathematics achievement as well as allow students to understand how to solve real world mathematical problems.

State the measureable outcome the school plans to achieve SSMS students will improve the mathematics school grading component from 61% in 2018-19 to 65% in 2019-20.

Person responsible for monitoring outcome Joel Camp (joel.camp@sumter.k12.fl.us)

Evidence-based Strategy AVID strategies will be used across all content areas. Students will be given additional time to practice to math skills daily in 6th period on iXL. Teachers will follow curriculum maps and timelines to ensure all standards are taught. Professional Learning Communities will plan and collaborate with other teachers to develop lesson plans that address student weaknesses. Select underperforming students will participate in an after-school program if funds are available. Selected student will be provided additional instructional time on iReady to ensure mastery of math standards.

Rationale for Evidence-based Strategy We believe that the use of these strategies will allow the students at SSMS to show increase in achievement due to the supplemental support they will receive through 6th period classes, iReady, and individual and small group support in the classroom. These strategies have proven successful in closing the achievement gap. These strategies will be monitored through data chats with students and teachers. Data chats will enable students and teachers to see the progress being made towards learning goals.

Action Step

Description

1. Educators will make consistent use of data throughout the school year to improve instruction.
2. Students will monitor their progress in achieving learning goals throughout the year using formative assessments.
3. Teachers and leadership team will monitor fidelity of these interventions.

Person Responsible Joel Camp (joel.camp@sumter.k12.fl.us)

#3	
Title	Science Assessment Achievement
Rationale	The Science achievement decreased by 9% from 2018 to 2019 results and is only 2% above the state average. Intensive remediation and supplemental support will lead to increased Science achievement and overall success in solving real world science problems.
State the measureable outcome the school plans to achieve	SSMS students will show an increase in student achievement on the FCAT science 2.0 assessment from 53% in 2018-19 to 62% in 2019-20.
Person responsible for monitoring outcome	Joel Camp (joel.camp@sumter.k12.fl.us)
Evidence-based Strategy	Teachers will follow the district curriculum map and course timeline for prioritized skills to ensure all students receive guaranteed and viable curriculum and use data to drive instruction. Science teachers will increase hands-on, guided inquiry lessons, incorporating writing and AVID strategies and collaboration through the use of Pearson Realize. Professional Learning Communities will plan and collaborate with other teachers to develop lesson plans that address student background knowledge weakness throughout a lesson. Students will increase real world setting science experience by participating in Environmental Science Activities through the Sumter Environmental Education Center for 6th grade, 7th grade Water Quality with the Marine Science Center, and the 8th grade solar car race. Students will utilize Study Island for additional instruction in the science standards. All students will complete a science project using the scientific method and also use STEM activities. Teachers will incorporate content area reading strategies and specific vocabulary strategies to increase student comprehension of science text through the use of AVID strategies.
Rationale for Evidence-based Strategy	We believe that the use of these strategies will allow the students at SSMS to show increased achievement due to the supplemental support they will receive through real-world, inquiry based lessons, Study Island, and individual and small group support in the classroom. These strategies have proven success in closing the achievement gap. These strategies will be monitored through data chats with students and teachers. Data chats will enable students and teachers to see the progress being made towards learning goals.
Action Step	
Description	<ol style="list-style-type: none"> 1. Educators will make consistent use of data throughout the school year to improve instruction. 2. Students will monitor their progress in achieving learning goals throughout the year using formative assessments. 3. Teachers and leadership team will monitor fidelity of these interventions.
Person Responsible	Joel Camp (joel.camp@sumter.k12.fl.us)

#4	
Title	Civics EOC Achievement
Rationale	Based on the data, the school wants to continue the trend of increasing Civics EOC achievement. Intensive remediation and supplemental support will lead to increased Civics achievement as well as allow students to understand how Civics applies to their lives in the real world.
State the measureable outcome the school plans to achieve	SSMS students will show an increase in student achievement on the Civics EOC from 74% in 2018-19 to 80% in 2019-20.
Person responsible for monitoring outcome	Joel Camp (joel.camp@sumter.k12.fl.us)
Evidence-based Strategy	Teachers will incorporate Civics concepts into ELA lessons as appropriate. Civics teachers will collaborate to develop lessons that focus on necessary targets. AVID strategies will be used across content areas. Students will use Data Based Questioning projects and Achieve 3000 to further their understanding of the Civics standards. Students will participate in a standards review prior to the Civics EOC.
Rationale for Evidence-based Strategy	We believe that the use of these strategies will allow the students at SSMS to show increased achievement due to the supplemental support they will receive through DBQ projects, Achieve 3000, connecting Civics to other subject areas, and individual and small group support in the classroom. These strategies have proven success in closing the achievement gap. These strategies will be monitored through data chats with students and teachers. Data chats will enable students and teachers to see the progress being made towards learning goals.
Action Step	
Description	<ol style="list-style-type: none"> 1. Educators will make consistent use of data throughout the school year to improve instruction. 2. Students will monitor their progress in achieving learning goals throughout the year using formative assessments. 3. Teachers and leadership team will monitor fidelity of these interventions.
Person Responsible	Joel Camp (joel.camp@sumter.k12.fl.us)

#5	
Title	Students with Disabilities Federal Points Index
Rationale	The prior year's ESSA data showed that students with disabilities met 40% of the federal index and are below the 41% ESSA requirement. Intensive remediation and supplemental support will lead to increased performance and overall success for students in their academic classes.
State the measureable outcome the school plans to achieve	Students with disabilities will show an increase in the ESSA federal index from 40% in 2018-19 to 41% in 2019-20.
Person responsible for monitoring outcome	Joel Camp (joel.camp@sumter.k12.fl.us)
Evidence-based Strategy	AVID strategies will be used across all content areas. iXL, Achieve 3000, iReady, and Study Island will be used to supplement standards instruction. Students with disabilities scoring a level 1 on their ELA FSA will be enrolled in an Intensive Reading course. Timelines, curriculum maps, and access point guidelines will direct teacher instruction. Inclusion support services will be utilized across content areas to provide extra support to students with disabilities. Select underperforming students with disabilities will participate in the after school program if funds are available. Students with disabilities that are in the bottom quartile of math or ELA will receive extra standards practice through once a week computer lab pull-outs.
Rationale for Evidence-based Strategy	We believe that the use of these strategies will allow the students at SSMS to show increased achievement due to the supplemental support they will receive through Intensive Reading classes, Achieve 3000, inclusion support services, iReady, and individual and small group support in the classroom. These strategies have proven success in closing the achievement gap. These strategies will be monitored through data chats with students and teachers. Data chats will enable students and teachers to see the progress being made towards learning goals.
Action Step	
Description	<ol style="list-style-type: none"> 1. Educators will make consistent use of data throughout the school year to improve instruction. 2. Students will monitor their progress in achieving learning goals throughout the year using formative assessments. 3. Teachers and leadership team will monitor fidelity of these interventions.
Person Responsible	Joel Camp (joel.camp@sumter.k12.fl.us)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information)

1. One hundred percent of staff and students will incorporate school-wide digital literacy and technology integration in order to increase student learning outcomes through enhanced instruction. The reason for increasing digital literacy and technology integration is to help with individualized learning, to increase student achievement and learning gains, and to prepare students to be college and career ready in a digital world.
2. Students will show a decrease in the area of discipline. Parent calls/notes, parents conferences, lunch detention, PBS strategies, and short conduct forms are used as interventions for student behavior.
3. Students will show a decrease in the number of absences from school. Parent phone calls, attendance letters, attendance child study team meetings, referrals to Youth and Family Alternatives, and attendance contracts will be used. The students with excessive absences will be placed on a targeted attendance list where their attendance is closely monitored.
4. Parent involvement will show an increase. Evening events will be planned in order to provide opportunities for more parents to become involved. Events will be advertised through the monthly school newsletter, school sign, and call outs to parents.

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Pilot SIP to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students

The school completes a Parental Involvement Plan (PFEP), which is accessible through the Continuous Improvement Management System (CIMS). Various activities are held throughout the school year which encourage parent involvement in SSMS. These activities include, AVID nights, AVID contract signing night, orientation for each grade level, and conference nights. These events allow parents to meet with teachers and to be active participants in their children's academic journey at SSMS. Partnerships with local businesses have been established to ensure students have the supplies they need for school. The school receives donations such as bookbags, general school supplies, as well as clothing for those students that are in need. These partnerships secure the items students need so that they can focus on their studies and not worry about the things they need for school. Community stakeholders and industry stakeholders play an integral role in fulfilling the school's mission. They are also invited to present at various Career Day activities held throughout the year on campus to provide the students with information on possible future career opportunities and to provide students with the tools needed to become college and career ready.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services

SSMS has two guidance counselors for the students to go to as needed. Depending on the individual student's needs, the district employs school psychologists and behavior liaisons from which the school may request services. In addition, Lifestream provides services to students on campus with parent approval. Every student on campus has been paired up with a mentor (instructional and non-instructional staff) and meets monthly with a small group of peers where team building is encouraged.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another

SSMS offers a 5th grade visitation to all feeder schools which assists in the transition process from elementary to middle school. During the visit, students become familiar with the campus, the various programs offered, and get to visit classrooms. SSMS also offers a 6th grade orientation prior to the school year starting where the students come and meet their teachers, The 8th graders are offered a 9th grade orientation at SSHS as well. To assist with the transition from one grade to another within SSMS, grade expectations are reviewed and students are made aware of options that may be available to avoid retention. Testing is provided to help with placement for the upcoming year and state assessment scores are looked at for placement in advanced courses.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact

The Leadership Team will focus meetings around one question: How do we develop and maintain a problem-solving system to bring out the best in our school, our teachers, and in our students? The team meets weekly to engage in the following activities: review universal screening data and link to instructional decisions; review progress monitoring data at the grade level and classroom level to identify students who are meeting/exceeding, at moderate risk or at high risk for not meeting benchmarks. Based on the above information, the team will identify professional practices, evaluate implementation, make decisions, and practice new processes and skills.

Title I- The school is allotted Title I funds to help ensure a partnership between school, student, and parent. The funds are used to help promote parent awareness of student academics.

Title II- The school is allotted Title II funds for professional development opportunities. Professional development for teachers and administrators are based on the school improvement goals and student data.

Title X- Homeless: The district identifies homeless children during the registration process or when the family becomes homeless. The district then buys supplies through Title X dollars or clothing and other needed items through Homeless ARRA funds. Homeless students are not segregated and barriers to their education are eliminated.

Nutrition Programs: Schools participate in the Department of Agriculture's National Lunch Program and are provided the opportunity to receive food service for breakfast and lunch, Students who participate in afterschool academic enrichment programs are also eligible to receive a snack provided through the program.

Violence Prevention Programs: SSMS has a Positive Behavior Intervention Support (PBIS) plan. The school also has a HELP BOX where students can anonymously identify students in need of help.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations

Most 6th grade students will be enrolled in a one-semester course that is fundamental to ensuring career readiness on the part of the students. This course covers essentials such as developing and practicing a strong work ethic, time management, communication, teamwork, and the fundamentals of workplace organizations. Students take career assessments which provide them information on career clusters that align to their interests and abilities. In collaboration with local businesses and organizations in an effort to advance career awareness, we have begun forming meaningful partnerships within our local community. We rely on the expertise of guest speakers to provide students with relevant career-related information about each career cluster. In addition to the traditional career curriculum, students can also use My Career Shines, a tool to explore, research, and build a personalized academic and career plan.

Additionally, SSMS is a National Demonstration School Schoolwide Site of Distinction for AVID and students receive college and career awareness through the AVID elective. The AVID program accelerates student learning by teaching students college readiness skills. Student learn information about future courses and colleges that are suited to their interests.

Part V: Budget
