Bd Apprvd 5/5/09

buses in the same condition in which they were received. Bus rules adopted by the School Board as policy will apply to all bus trips.

2. Should the driver consider any portion of his/her route hazardous, he/she shall so report to his/her supervisor and every effort shall be made to alter the route or correct the situation to eliminate such hazards. The route shall be altered to eliminate such hazards, if not corrected.
3. All extra trips will be assigned on a rotating basis. A list for the North and South attendance areas based on seniority will be developed during the first week of school and the first week in January consisting of those State and County qualified drivers who indicate that they are interested in "extra trip" duty. All persons submitting their name to be included shall be expected to take the trip when their name reaches the top of the rotating list. Trips that fall under a single classification e.g. football trips, band trips, etc. will be grouped by school, and one driver (with the greatest seniority) from the rotating list will be assigned all such trips for the year. All group trips shall be assigned to a driver with the greatest seniority as expeditiously as possible after receipt of a group schedule in the Transportation Office. The procedure will start with the most senior driver who does not have a group trip assignment for the year. A driver will remain on the rotating list in their seniority position until that driver selects a group trip. Only after the selection of a group trip will the driver move to the bottom of the rotating list. In the event an activity is canceled after a group trip assignment has been made, the person(s) assigned those trips will move back to their seniority position on the rotating list. If a group trip is added after group assignments have been completed, the trip will be assigned to the next senior person on the rotating list of extra trip drivers. After once offering the group trip to the entire rotating list of extra trip drivers not already having a group trip assignment, the group trip will be offered to drivers (starting with the most senior driver) who have received prior group trip assignments. Clock time will coincide with beginning mileage for trips. Field trips will not begin prior to 8:30 a.m. except in case

of emergency. Drivers are expected to provide one week notice if they will be unable to drive any extra trip awarded them.

4. Drivers shall make such reports as may be required by law and the School Board according to the schedule furnished by the Transportation Chief.
5. Principals shall notify bus drivers in writing of students assigned to their bus who have been expelled, suspended or transferred from school or the effective date of change.
6. Discipline forms shall be furnished to the bus driver and shall be used to report students who misbehave. Four (4) copies of this form will be given to the Principal and a copy shall be retained by the bus driver. It shall be the responsibility of the Principal to send one (1) copy to the parents. Bus drivers' recommendation of disciplinary action will be taken into account and action shall be taken by the Principal to improve the situation. Should appropriate action not be taken after three (3) written reports on a student the bus driver shall have the right to meet with the Principal, Transportation Chief and Director of Transportation during the driver's duty time, if possible. When discipline problems of a student become persistent or severe, the driver shall notify the principal who shall consider suspension or expulsion from the transportation system privileges for that pupil.
7. When it is necessary for a student to ride a bus other than his/her regular assigned bus, or be allowed to depart the bus at a stop other than their regular assigned stop, a form from the principal's office authorizing the change shall be given the driver.
8. Bus drivers shall not be required to transport more passengers than specified in Federal Standard 17.
9. Only State and County qualified bus drivers shall operate buses to transport students.
10. All new and/or vacated routes shall be advertised. For such positions during the school year, the position will be announced through bus radios for three consecutive days, after which the position will be filled using

seniority as the basis for selection. Any drivers absent during this three day period will be notified of the vacancy by telephone. When all requests for reassignment have been honored, the route position remaining will be advertised for 10 days following customary procedures. For routes vacated between the close of the school year and prior to pre-school, scheduling will be accomplished at the pre-school bus driver meeting in August; the normal posting period will be waived in this circumstance, provided all drivers have been notified of the date this scheduling is to be accomplished. Effective July 1, 2008, the date and time of initial recommendation of drivers will be used as a priority list in lieu of seniority for route, bus and extra bus trip assignments.

- 11.** The Board shall furnish all cleaning supplies necessary to maintain buses in a clean condition.
- 12.** When feasible drivers shall be allowed to take buses home after their P.M. run.
- 13.** New buses shall be assigned according to the formula developed by the bus driver and administration committee (using seniority, odometer reading, and age of the bus rating scales with the lowest composite score receiving a new bus), except as required by Florida Statutes.
 - a.** Between the end of one school year and the beginning of the next, a committee will review the bus routes. Should any bus used on long routes have an odometer reading in excess of 50,000 miles, its replacement will take precedence over assignments yielded as a result of the provisions of Section F. 13 of this agreement. Such consideration will be made only in the specified time frame.
 - b.** For an interim period, higher mileage or older buses may be removed from the fleet before those identified under Section F. 13 of this agreement. The committee referenced in Subsection a. above will oversee the interim replacements. Once the bus fleet reaches a standard so as to meet the needs of the school system, the Bus Allocation Formula defined in Section F. 13 will be

followed.

14. Bus drivers will not be responsible for securing substitute drivers.
15. Buses are not intended to be repositories for students, and to that end, students will not be allowed on the bus more than ten (10) minutes prior to the scheduled departure time for the bus. Students who are already on the bus from a previous stop may remain on the bus.
16. The Transportation Chief will develop a prioritized list of needs in regard to radios to be installed in buses. Radios will be placed on buses as the budget will allow.
17. A route reassignment may be made if charges have been brought forward against the driver and no other route is available for the child/children involved to be transported.
18. Substitute drivers or drivers receiving a new bus will have access on the bus to a "safety feature summary" for that bus in addition to the general safety training program.

ARTICLE XXIV EMPLOYER-EMPLOYEE RELATIONS

- A.** The parties recognize that a strong and effective school district/educational institution in a democratic society requires a cooperative effort between labor and management at all levels of interaction. The parties further recognize that if education is to be a top priority in the State and nation, the parties must pursue their joint objectives with renewed dedication, initiative and cooperation. Collective bargaining has proven to be successful instrument in achieving common goals and objectives in the employment relationship between bargaining unit members and administrators. However, problems of a continuing nature may exist at work site/building level which significantly impact that relationship. Solutions to these problems are vital if the quality of work life for bargaining unit members is to be enhanced and if the proficiency of the school district/educational institution is to be improved.
- B.** The parties recognize that a cooperative approach between bargaining unit members and administrators at the work site/building level is essential to the solution of problems affecting them. Many problems at this level are not readily subject to the resolution under existing contractual programs and practices but affect the ongoing relationship between labor and management at that level. Joint participation in solving these problems at the work site/building level is an essential increment in any effort to improve the effectiveness of the district/institution's performance and to provide bargaining unit members with a measure of involvement adding dignity and worth to their work life.
- C.** In pursuit of these objectives, the parties believe that the Association and Employer can best implement this cooperative approach through the establishment of the following:

 - 1.** Participation Teams of bargaining unit members and administrators at the work site/building level. Accordingly, it is agreed that the following program will be undertaken with respect to Participation Teams.

 - a.** Members of the bargaining unit shall establish a Participation Team at the work site/building level. A Participation Team will be

made up of administration co-chairperson (county supervisors or administration may serve as consultants), a bargaining unit member co-chairperson, and (2) two bargaining unit members of the work site/building. The bargaining unit members of each work site/building will select their Participation co-chairperson and members.

- b.** Participation Team meetings shall be called by the co-chairpersons during normal working hours provided the bargaining unit and administration members agree. A Participation Team shall be free to discuss, consider and decide upon proposed means to improve department or work site/building performance, bargaining unit members morale and dignity, and conditions of the work site/building. Appropriate subjects, among others, which Teams might consider include: use of educational facilities, quality of the work environment, safety and environmental health, scheduling and reporting arrangements; absenteeism and overtime, energy conservation and transportation pools. Participation Teams shall have no jurisdiction over the initiation of, or the processing of complaints or grievances. The Participation Teams shall not have authority to add to, detract from, or change the terms of this Agreement.
 - c.** A Participation Team shall be free to consider a full range of responses to implement performance improvements and to make recommendations to the Superintendent and the Board regarding appropriate equipment and materials necessary to maintain a high standard of performance.
- 2.** An employee relations committee made up of five (5) bargaining unit members appointed by the SCESP President to meet on a quarterly basis with the Superintendent regarding non-contractual matters. The SCESP will request the establishment of each meeting time of the Superintendent.

This benefit shall take effect upon ratification of this contract by both parties or January 1, whichever is later.

New bargaining unit employees hired must enroll in the insurance program during the first thirty (30) days of employment.

Bd Apprvd 4/16/13

Failure to provide a payment to the Board by the first of the month will result in termination of insurance benefits. Immediately following the twelve-month period, employees may elect COBRA coverage up to eighteen (18) months.

Bd Appd 3/7/17

Employees who resign or are terminated, but who complete their contract year, have insurance extended through the last date of extended coverage made possible by prepayment.
