

CTE Adoption – Review of Selected Textbooks of for Parents, Students and Public.

The Sumter County School Board has been involved in the adoption process of textbooks for CTE (Career and Technical Education) this school year. Our teacher committees for each of the courses that we are adopting textbooks for have made their selections. We welcome all stakeholders to take part in the review of the selected instructional materials. In addition, there will be a hearing to review the selections at the February 18, 2020 school board meeting in Bushnell, Florida at 5:30 p.m.

Below you will find a link to the student editions of the selected textbooks associated with each course. If there are any questions or concerns, please contact Casey.Ferguson@sumter.k12.fl.us.

Administrative Office Technology (Course Code 8212110)
