MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Sumter County District School Board has prepared the following discussion and analysis to (a) assist the reader in focusing on significant financial issues, (b) provide an overview and analysis of the District's financial activities, (c) identify changes in the District's financial position, (d) identify material deviations from the approved budget, and (e) highlight significant issues in individual funds, for the fiscal year ended June 30, 2019. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2018-19 fiscal year are as follows:

- Overall, the District's financial position increased from the prior fiscal year The District's total net position increased by \$1,638,641.
- During the current fiscal year, General Fund revenues and other financing sources exceeded expenditures and other financing uses by \$108,905

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements;
- Fund financial statements; and
- Notes to financial statements.

In addition, this report presents certain required supplementary information, which includes the MD&A, budgetary comparison schedule, a schedule of changes in the total OPEB liability and related rations, schedules related to pensions, and notes to required supplementary information.

Government-Wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting. The statement of net position provides information about the District's financial position, its assets, liabilities, and deferred inflows/outflows of resources, using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equals net position, which is a measure of the District's financial health. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in the following categories:

Governmental activities – This represents most of the District's services, including its
educational programs such as basic, vocational, adult, and exceptional education. Support
functions such as transportation and administration are also included. Local property taxes and
the State's education finance program provide most of the resources that support these
activities.

The Sumter County School Board Leasing Corporation (Leasing Corporation), although also a legally separate entity, was formed to facilitate financing for the acquisition of facilities and equipment for the District. Due to the substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation has been included (blended) as an integral part of the primary government.

Over a period of time, changes in the District's net position are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other nonfinancial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets, including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entitywide perspective contained in the government-wide statements. All of the District's funds may be classified within one of the broad categories discussed below.

<u>Governmental Funds</u>: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major

funds are the General Fund, Special Revenue – Other Fund, Capital Projects – Capital Outlay and Debt Service Fund, Capital Projects – Local Capital Improvement Fund, and Capital Projects-Other Funds. Data from the other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the General Fund and the major special revenue fund to demonstrate compliance with the budget.

<u>Proprietary Funds</u>: Proprietary funds may be established to account for activities in which a fee is charged for services. The District maintains one type of proprietary fund, which is an internal service fund. Internal service funds are used to report activities that provide goods and services to support the District's other programs and functions through user charges. The District uses the internal service fund to account for its self-insured workers' compensation and health insurance programs. Since these services predominantly benefit governmental rather than business-type functions, the internal service fund has been included within governmental activities in the government-wide financial statements.

<u>Fiduciary Funds</u>: Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses agency funds to account for resources held for student activities and groups.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's net pension liability and its progress in funding its obligation to provide other postemployment benefits to its employees.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

This section is used to present condensed financial information from the government-wide statements that compare the current year to the prior year.

Total assets of the District amount to \$92,284,182.25 and \$90,808,257 as of June 30, 2019, and 2018, respectively. The current ratio is 6.93:1 with current assets of \$13,983,047 and current liabilities of \$2,020,150. The other assets not considered to be current assets for the purpose of computing the current ratio include capital credits receivable, and cash and cash equivalents and investments restricted for capital improvements of \$7,528,285 and for debt service of \$203,783. The prior year current ratio was 7.27:1 with current assets of \$14,059,743 and current liabilities of \$1,935,267.

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. The following is a summary of the District's net position as of June 30, 2019, compared to net position as of June 30, 2018:

Net Position, End of Year

| Total Net Position | \$ 26,973,849 | \$ 25,335,208 | | | |

The largest portion of the District's net position (\$44,255,130) is investment in capital assets (e.g., land; buildings; furniture, fixtures, and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. The capital assets decreased by \$804,583 from the prior fiscal year, primarily due to the sale of the former North Sumter Primary School campus.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The District's unrestricted net position decreased by a total of \$2,337,633, as a result of a larger increase in net investment in capital assets.

The key elements of the changes in the District's net position for the fiscal years ended June 30, 2019, and June 30, 2018, are as follows:

The largest revenue source is property tax revenue (70 percent).

Revenues and expenses were generally consistent with the prior fiscal year with the exception of Instruction expenses and Facilities Acquisition and Construction. Instruction expenses increased due to increased payment to the Charter School related to student growth. Instructional staff salaries and benefits also increased, as explained in the changes to General Fund Expenditures. Facilities Acquisition and Construction expenses increase due to completion of several major construction projects.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Specifically, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance that has not been limited to a particular purpose by an external party, the District, or a group or individual delegated authority by the Board to assign resources for particular purposes.

At fiscal year end, the District's governmental funds reported combined ending fund balances of \$7,061,415, an increase of \$1,471,281, in comparison with the prior fiscal year. The following schedule indicates the fund balances and the total changes in fund balances by major fund and other governmental (nonmajor) funds as reported in the basic financial statements for the fiscal years ended June 30, 2019, and June 30, 2018.

Major Governmental Funds

The General Fund is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance is \$5,042,525, while the total fund balance is \$8,423,786. As a measure of the General Fund's liquidity, it may be useful to compare the total assigned and unassigned fund balances to General Fund total revenues. The total assigned and unassigned fund balance is 8.79 percent of the total General Fund revenues, while total fund balance represents 12.4 percent of total General Fund revenues.

During the current fiscal year, the total General Fund balance increased by \$108,905. Revenues and other financing sources increased by \$2,665,637 from the prior fiscal year, while expenditures and other financing uses increased by \$2,641,522.

The following schedule shows the changes in General Fund revenues and other financing sources for fiscal years ended June 30, 2019, and June 30, 2018:

| | | | Increase | Percentage |
|--|---------------|---------------|--------------|------------|
| | 6-30-19 | 6-30-18 | (Decrease) | Change |

| Total Revenues and Other Financing Sources | \$ 78,914,781 | \$ 76,249,144 | \$ 2,665,637 | 3.50% |

State revenues increased slightly from the prior fiscal year. Property tax revenue increased slightly due to growth in property values. Other local revenues decreased slightly. Transfers into the General Fund decreased slightly.

The following schedule shows the changes in General Fund expenditures (by major object) for fiscal years ended June 30, 2019, and June 30, 2018:

| | 6-30-19 | 6-30-18 | Increase (Decrease) | Percentage Change |
|----------------------|----------------|---------------|------------------------|----------------------|
| Expenditures: | | | | |
| Salaries | \$ 32,556,613 | \$ 30,283,861 | \$ 2,272,752 | 7.50% |

| Other | 392,903 | 362,028 | 30,875 | 8.53% |
| Total Expenditures | \$ 78,805,875 | \$ 76,164,354 | \$ 2,641,521 | 3.47% |

Salaries were greater due to increased spending for additional positions, raises in employee salaries, increased school safety, counseling and mental health needs, and increased Exceptional Student Education (ESE) needs. Benefits were lower due to savings realized by the District's self-insured health and workman compensation plans. Material and supplies decreased due to more reliance on technology devices and less spending on textbooks. Capital Outlay expenditures, such as technology equipment purchases and enterprise software were less in the current year, primarily due to timing of equipment orders and deliveries.

The Special Revenue – Other Fund has total revenues and expenditures of \$4,720,291 each and the funding was mainly used for instruction related costs. Because grant revenues are not recognized until expenditures are incurred, this fund generally does not accumulate a fund balance.

The Capital Projects – Capital Outlay and Debt Service Fund has a total fund balance of \$2,139,648 which is restricted for projects such as the construction of new schools, including capital equipment and additions to existing schools. The fund balance increased by \$344,384 primarily because these funds are typically accumulated until there are sufficient funds to use for a project.

The Capital Projects – Local Capital Improvement Fund has a total fund balance of \$5,719,482 which is restricted for the acquisition, construction, and maintenance of capital assets. The fund balance increased by \$798,125 primarily because of an increase in property tax revenue related to increase in property tax values. It should be noted that \$1,356,483 is encumbered for specific projects.

Proprietary Funds

The internal service funds account for the District's workers' compensation self-insurance program and the health insurance programs. Unrestricted net position of the internal service funds totals \$2,803,585 at June 30, 2019, decreasing \$731,138 from June 30, 2018. The proprietary fund net position increased primarily due to premium revenues exceeding operating expenses.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the 2018-19 fiscal year, the District amended its General Fund budget several times. Final budgeted revenues are in line with original amounts.

Final appropriations were more than the original budgeted amounts by \$2,354,052. However, the District's actual expenditures are \$5,426,475 below the final budgeted expenditure amount. Each fiscal year, the District budgets in full for all funds available for categorical and restricted purposes, even though the full amount may not be spent and significant unexpended portions are carried over to the succeeding fiscal year.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2019, is \$67,933,131 (net of accumulated depreciation). This investment in capital assets includes land; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; and construction in progress.

Major capital asset events included the following:

- The District completed a South Sumter High School HVAC project at a cost of \$1,931,545.
- The District completed a Webster Elementary School renovation project at a cost of \$979,307.
- The District completed other miscellaneous renovation and roofing projects at a cost of \$612,704.

Major contract commitments at fiscal year end for construction activity amounted to \$84,149.

The District sold the former North Sumter Primary School campus to the City of Wildwood for a sales price of \$1,700,000. The undepreciated cost of the property was \$1,055,718. The District collected

\$170,000, less closing costs of \$124,100 at the time of closing. The District holds a note receivable for the balance of \$1,530,000, which is recorded in the Capital Projects-Other Fund.

Additional information on the District's capital assets can be found in the Notes to the financial statements.

Long-Term Debt

DISTRICT SCHOOL BOARD OF SUMTER COUNTY RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2019

| Net Change in Fund Balances - Governmental Funds | \$ | 1,471,281.04 |
|--|-------------------------------|----------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Capital outlays are reported in the governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current fiscal year. | | 232,017.03 |
| The gain/(loss) on the disposal of capital assets during the current fiscal year is reported in the statement of activities. In the governmental funds, the cost of these assets was recognized as an expenditure in the fiscal year purchased. Thus, the change in net position differs from the change in fund balance by the undepreciated cost of the disposed assets. | | |
| Furniture Fixtures & Equipment | \$ (882.12) | |
| Land | (157,990.57) | |
| Building | (877,727.79) | (1,036,600.48) |

| In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences earned in excess of the amount paid in the current period. | | (24,598.89) |
| Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which repayments exceeded proceeds in the current fiscal year. | | |
| Bond Principal Payments Certificate of Participation Payments | \$ 83,000.00 1,538,000.00 | 1,621,000.00 |

| Capital Credits Receivable, June 30, 2018 | (278,734.78) | 8,084.64 |

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities are normally supported by taxes, intergovernmental revenues, and other nonexchange transactions. The primary government is reported separately from a legally separate component unit for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Sumter County School District's (District) governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense is not readily associated with a particular function and is reported as unallocated.

B. Reporting Entity

The Sumter County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE), and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Sumter County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading. Based on the application of these criteria, the following component units are included within the District's reporting entity:

Blended Component Unit. Blended component units are, in substance, part of the District's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the District. The Sumter County School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in Note III.1.1. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

C. Basis of Presentation: Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used.

D. Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- General Fund to account for all financial resources not required to be accounted for in another fund and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Special Revenue Other Fund to account for certain Federal grant program resources.
- <u>Capital Projects Capital Outlay and Debt Service (CO&DS) Fund</u> to account for the financial resources allocated from the State of Florida's CO&DS Program used to fund projects such as the construction of new schools, including capital equipment and additions to existing schools.
- <u>Capital Projects Local Capital Improvement Fund</u> to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments on certificates of participation.
- <u>Capital Projects Other –</u> to account for the financial resources generated by other sources, including the sale of property.

Additionally, the District reports the following proprietary and fiduciary fund types:

- <u>Internal Service Funds</u> to account for the District's individual self-insured workers' compensation program and health, dental, and vision insurance plans.
- Agency Funds to account for resources of the school internal funds, which are used to administer moneys collected at several schools in connection with school, student athletic, class, and club activities.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Further, certain activity occurs

during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, transfers between the funds included in governmental activities are eliminated in the preparation of the government-wide financial statements.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 30 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 30 days of year end). Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, pension benefits, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency funds have no measurement focus but utilize the accrual basis of accounting for reporting assets and liabilities.

The Charter School is accounted for as a governmental organization and follows the same accounting model as the District's governmental activities.

F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term liquid investments with original maturities of 3 months or less from the date of acquisition. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

2. Investments

Investments consist of amounts placed in the SBA debt service accounts for investment of debt service moneys and amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes. The investment pool operates under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

Types and amounts of investments held at fiscal year end are described in a subsequent note.

3. Inventories

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at weighted average cost, or last invoice, which approximates the first-in, first-out basis, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than purchased.

4. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000 for furniture, fixtures, and equipment and motor vehicles; \$100,000 for improvements other than buildings; buildings and fixed equipment; and construction

in progress. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at acquisition value at the date of donation.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| <u>Description</u> | Estimated Useful Lives |
|------------------------------------|-------------------------------|
| Improvements Other Than Buildings | 8 - 40 years |
| Buildings and Fixed Equipment | 10 - 50 years |
| Furniture, Fixtures, and Equipment | 3 - 15 years |
| Motor Vehicles | 5 - 10 years |

Current year information relative to changes in capital assets is described in a subsequent note.

5. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

6. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

Changes in long-term liabilities for the current year are reported in a subsequent note.

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The District has two items that qualify for reporting in this category. The deferred outflows of resources related to pensions and OPEB are discussed in subsequent notes.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*,

represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items that qualify for reporting in this category. The deferred inflows of resources related to pensions and OPEB are discussed in subsequent notes.

8. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

9. Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

10. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District reported no committed fund balances at June 30, 2019.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not

normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The Board authorized the Finance Director to assign existing fund balance in an amount equal to the projected excess of appropriations over expected revenues in an effort towards balancing the 2018-19 fiscal year budget. The District's approved budget for the 2018-19 fiscal year reflects a budget shortfall expected to be paid from the ending fund balance in these financial statements, of which \$929,215.32 is considered assigned fund balance.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the FDOE under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of 5 months following the date of the original reporting. Such amendments may impact funding allocations for subsequent fiscal years. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the fiscal year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following fiscal year to be expended for the same educational programs. The FDOE generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

3. District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Sumter County Property Appraiser, and property taxes are collected by the Sumter County Tax Collector.

The Board adopted the 2018 tax levy on September 4, 2018. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1 and are delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Sumter County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

4. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

5. Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of

employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

6. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for worker's compensation, health, dental, and vision insurance premiums. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

<u>Custodial Credit Risk-Deposits</u>. In the case of deposits, this is the risk that, in the event a bank failure, the District's deposits may not be returned to the District. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

B. Investments

The District's investments at June 30, 2019, are reported as follows:

| Investments | <u>Maturities</u> | Fair Value |
|-----------------------|-------------------|--------------------|
| SBA: | | |
| Florida PRIME (1) | 28 Day Average | \$ 1,362,991.69 |
| Debt Service Accounts | 6 Months | 63.74 |
| Total Investments | | \$ 1,363,055.43 |

⁽¹⁾ This investment is reported as a cash equivalent for financial statement reporting purposes.

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The District's investments in SBA debt service accounts are valued using Level 1 fair value measurement.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's investment policy limits investments of current short-term funds to a maximum of 12 months. Investments of bond reserves, construction moneys, and other core funds

shall have a term appropriate to the need for moneys, and in accordance with debt covenants, but in no event shall exceed 5 years. For construction proceeds of tax-exempt debt issues, such investments shall not exceed 3 years.

Florida PRIME uses a weighted average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

For Florida PRIME, with regard to redemption gates, Section 218.409(8)(a), Florida Statutes, states, "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the executive director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the board [State Board of Administration] can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council. The trustees shall convene an emergency meeting as soon as practicable from the time the executive director has instituted such measures and review the necessity of those measures. If the trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the executive director until the trustees are able to meet to review the necessity for the moratorium. If the trustees agree with such measures, the trustees shall vote to continue the measures for up to an additional 15 days. The trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the trustees exceed 15 days." As of June 30, 2019, there were no redemption fees, maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the Local Government Surplus Funds Trust Fund [Florida PRIME], or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury.

The District's investment policy limits investments to the Florida PRIME; or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; United States Treasury securities, including but not limited to notes, bills, bonds, strips, and State and Local Government Series (SLGS); obligations of United States Government Agencies and Instrumentalities; SEC registered money market funds with the highest rating and in compliance with Title 17 Section 270.2a-7 Code of Federal Regulations; securities or

other interest in any open-end or closed-end management type investment company or investment trust registered under the Investment Company Act of 1940; certificates of deposit that are either Federal Deposit Insurance Corporation insured or in State qualified public depositories; and other investments permitted by the State statute and not prohibited by this policy as may be recommended by the Superintendent and approved by the Board in advance.

The District's investments in the SBA debt service accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

The District's investment in Florida PRIME is rated AAAm by Standard & Poor's.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and (1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; (2) if in book-entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or (3) if physically issued to the holder but not registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a secured vault.

The District's investment policy requires that securities, with the exception of certificates of deposit, shall be held with a third-party custodian; and all securities purchased by and all collateral obtained by the District be properly designated as an asset of the District. A third-party custodian is defined as any bank depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State of Florida. The securities must be held in an account separate and apart from the assets of the financial institution. Certificates of deposit shall be placed in the provider's safekeeping department for the term of the deposit.

C. Changes in Capital Assets

Changes in capital assets are presented in the following table:

| | Beginning Balance | Additions | Deletions | Ending Balance |
|--|--|--|--------------------------------------|--|

The District's capital assets serve several functions; accordingly, depreciation expense, which totaled \$3,119,560.37 was reported as unallocated on the Statement of Activities.

D. Retirement Plans

1. FRS - Defined Benefit Pension Plans

General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and

FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$4,250,810 for the fiscal year ended June 30, 2019.

FRS Pension Plan

<u>Plan Description</u>. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are:

- Regular Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officers Members who hold specified elective offices in local government.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

The DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

<u>Benefits Provided</u>. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled

before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following table shows the percentage value for each year of service credit earned:

| Class, Initial Enrollment, and Retirement Age/Years of Service | Percent Value |
|--|---------------|
| Regular Members Initially Enrolled Before July 1, 2011 | |
| Retirement up to age 62 or up to 30 years of service | 1.60 |
| Retirement at age 63 or with 31 years of service | 1.63 |
| Retirement at age 64 or with 32 years of service | 1.65 |
| Retirement at age 65 or with 33 or more years of service | 1.68 |
| Regular Members Initially Enrolled On or After July 1, 2011 | |
| Retirement up to age 65 or up to 33 years of service | 1.60 |
| Retirement at age 66 or with 34 years of service | 1.63 |
| Retirement at age 67 or with 35 years of service | 1.65 |
| Retirement at age 68 or with 36 or more years of service | 1.68 |
| Elected County Officers | 3.00 |

As provided in Section 121.101, Florida Statutes, if the member was initially enrolled in the Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member was initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

<u>Contributions</u>. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2018-19 fiscal year were as follows:

| | Percent of Gross Salary | |
|---|-------------------------|--------------|
| Class | Employee | Employer (1) |
| FRS, Regular | 3.00 | 8.26 |
| FRS, Elected County Officers | 3.00 | 48.70 |
| DROP – Applicable to Members from All of the Above Classes | 0.00 | 14.03 |
| FRS, Reemployed Retiree | (2) | (2) |

- (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.
- (2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$2,322,599 for the fiscal year ended June 30, 2019.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>. At June 30, 2019, the District reported a liability of \$21,658,067 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was 0.071904696 percent, which was a decrease of 0.001112 from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized the Plan pension expense of \$3,542,404. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Description | rred Outflows Resources | | ferred Inflows f Resources |
|--|--------------------------------|----|-------------------------------|

The deferred outflows of resources related to pensions resulting from District contributions to the Plan subsequent to the measurement date, totaling \$2,322,599, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Fiscal Year Ending June 30 | Amount | |

| Thereafter | 113,021 | |
| Total | \$ 6,218,589 | |

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.60 percent

Salary Increases 3.25 percent, average, including inflation Investment Rate of Return 7.10 percent, net of pension plan investment

expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target <u>Allocation (1)</u> | Annual Arithmetic <u>Return</u> | Compound Annual (Geometric) Return | Standard <u>Deviation</u> |

⁽¹⁾ As outlined in the Plan's investment policy.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 7.0 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2018 valuation was updated from 7.1 percent to 7.0 percent.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is

HIS Pension Plan

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

<u>Benefits Provided</u>. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Federal Medicare.

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2019, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$587,880 for the fiscal year ended June 30, 2019.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>. At June 30, 2019, the District reported a net pension liability of \$10,697,860 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's

fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017, and update procedures were used to determine liabilities as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was 0.101074707 percent, which was a decrease of 0.001479682 from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized the HIS Plan pension expense of \$708,406. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Description | | rred Outflows Resources | erred Inflows Resources |
|---|----|----------------------------|--------------------------------|
| Differences Between Expected and | | | |
| Actual Experience | \$ | 163,780 | \$ 18,175 |

| Total | \$ | 1,962,699 | \$ 1,600,896 |

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$587,881, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Fiscal Year Ending June 30 | e 30 Amount | |
|----------------------------|-------------|-----------|
| | | _ |
| 2020 | \$ | 59,450 |
| 2021 | | 58,906 |

| 2034 | | (201,442) |
| Thereafter | | (97,321) |
| Total | \$ | (226,072) |

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Exhibit D-1 Page 18 s

Inflation 2.60 percent

Salary Increases 3.25 percent, average, including inflation

Municipal Bond Rate 3.87 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 3.87 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 3.58 percent to 3.87 percent.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.87 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.87 percent) or 1 percentage point higher (4.87 percent) than the current rate:

| | 1% | Current | 1% |
|---|------------------|-----------------------|---------------------|
| | Decrease (2.87%) | Discount Rate (3.87%) | Increase (4.87%) |
| District's Proportionate Share of the Net Pension Liability | \$ 12,184,236 | \$ 10,697,860 | \$ 9,458,880 |

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

2. FRS – Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State's Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law,

but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2018-19 fiscal year were as follows:

| | Percent of Gross |
|------------------------------|---------------------|
| Class | Compensation |
| FRS, Regular | 6.30 |
| FRS, Elected County Officers | 11.34 |

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2019, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$584,316 for the fiscal year ended June 30, 2019.

E. Other Postemployment Benefit Obligations

The District follows GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,* for reporting the employers' OPEB Plan liability.

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the District's retirement eligibility provisions. Pursuant to Section 112.0801, Florida Statutes, former employees who retire from the District are eligible to participate in the District's health and hospitalization plan for medical, prescription drug, dental, vision, and life insurance coverage. Retirees and their dependents shall be offered the same health and hospitalization insurance coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because retiree healthcare costs are generally greater than active employee healthcare costs. The District does not offer any explicit subsidies for retiree coverage. Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The OPEB Plan does not issue a stand-alone report, and is not included in the report of a public employee retirement system or other entity. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

<u>Benefits Provided</u>. The OPEB Plan provides healthcare, dental, vision and life insurance benefits for retirees and their dependents. The OPEB plan only provides an implicit subsidy as described above.

<u>Employees Covered by Benefit Terms</u>. At July 1, 2017, the following employees were covered by the benefit terms:

| Inactive Employees or Beneficiaries Currently Receiving Benefits | 41 |
|--|-----|
| Active Employees | 550 |
| Total | 591 |

<u>Total OPEB Liability</u>. The District's total OPEB liability of \$6,709,846 was measured as of July 1, 2018, and was determined by an actuarial valuation as of that date.

<u>Actuarial Assumptions and Other Inputs</u>. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 3 percent
Discount Rate 3 percent

Healthcare Cost Trend Rates 8 percent for 2017, decreasing 0.5 percent per year

to an ultimate rate of 5 percent for 2023 and later

years

Retirement Election Rates 40 percent of actives expected to elect coverage at

retirement

The discount rate chosen, 3 percent, is less than the maximum allowable discount rate for an unfunded plan, 3.6 percent. The maximum allowable discount rate is based on the Bond Buyer General Obligation 20-year Municipal Bond Index.

The healthcare trend rates are in line with Getzen trends for later years but do not fluctuate year to year depending on the District's latest rate impact.

Mortality rates were based on the RP-2014 mortality table with mortality projected to the current year using Scale MP-2014.

The retirement election rates were made based on a review of election rates from similar programs and discussions with the District.

Changes in the Total OPEB Liability.

| | Amount |
|--|-----------------|
| Balance at June 30, 2018 | \$ 7,501,863 |
| Changes for the year: | |
| Service Cost | 342,834 |
| Interest | 234,177 |
| Differences Between Expected and Actual Experience | - |
| Changes of Assumptions or Other Inputs | (1,103,792) |
| Benefit Payments | (265,236) |
| Net Changes | (792,017) |
| Balance at June 30, 2019 | \$ 6,709,846 |

Changes of assumptions or other inputs reflect a change in the healthcare trend, retirement election, and mortality rates. In prior years, the healthcare trend rate was based on the Getzen approach where the first year trend starts with the District's rate increase. The current approach yields rates that are in line with Getzen trends for later years but do not fluctuate year to year depending on the District's latest rate impact. The retirement election rates were adjusted based on an assumption that 40 percent of new retirees not eligible for Medicare will elect post-retirement medical benefits and 90 percent will drop coverage when they turn 65. In the prior year, 50 percent of new retirees not eligible for Medicare were assumed to elect to continue post-retirement medical benefits and 85 percent were assumed to drop coverage when they turned 65. The mortality rates have been adjusted slightly in the current year.

<u>Sensitivity of the Total OPEB Liability to Changes in the Discount Rate</u>. The following table presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2 percent) or 1 percentage point higher (4 percent) than the current rate:

| | 1% | | Current | | 1% | | |

<u>Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates</u>. The following table presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (7 percent decreasing to 4 percent) or 1 percentage point higher (9 percent decreasing to 6 percent) than the current healthcare cost trend rates:

<u>OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB</u>. For the fiscal year ended June 30, 2018, the District recognized OPEB expense of \$279,283. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| Description | red Outflows Resources | Deferred Inflows of Resources | |
|--|-------------------------------|-------------------------------|------------------------|
| Differences Between Expected and Actual Experience Change of Assumptions or Other Inputs Benefits Paid Subsequent to the | \$ - - | \$ | 1,352,527 2,354,476 |

The amount reported as deferred outflows of resources related to OPEB, totaling \$270,541, resulting from benefits paid subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the total OPEB liability in the year ended June 30, 2020. The amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

F. Construction and Other Significant Commitments

<u>Construction Contracts</u>. Encumbrances include the following major construction contract commitments at fiscal year-end:

Encumbrances. Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next fiscal year's appropriations are likewise encumbered.

The following is a schedule of encumbrances at June 30, 2019:

G. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District established a Risk Management Internal Service Fund (Risk Management Fund) to account for and finance its uninsured risks of loss related to workers' compensation claims. Under this program, the Risk Management Fund provides coverage for up to \$400,000 for each worker's compensation claim. The District has entered into agreements with various insurance companies to provide specific excess

coverage of claim amounts above the stated amount on an individual claim basis, and aggregate excess coverage of \$1,000,000 when total claims minus specific excess coverage exceeds the loss fund established annually by the District. The District has contracted with an insurance administrator to administer this self-insurance program, including the processing, investigating, and payment of claims.

The District's health insurance program is being provided on a self-insured basis up to specific limits and the District is utilizing its Health Internal Service Fund to account for its activities. The District has entered into an agreement with Blue Cross and Blue Shield (BCBS) to provide individual and aggregate excess coverage. BCBS will reimburse 100 percent of individual claims in excess of \$150,000 and the aggregate reimbursement maximum is \$1,000,000 per policy record. BCBS administers this self-insurance program, including the processing, investigation, and payment of claims. The lifetime maximum for each individual covered is unlimited.

Settled claims resulting from the risks described above have not exceeded commercial insurance coverage in any of the past 3 fiscal years.

A liability in the amount of \$649,082.00 was actuarially determined to cover estimated incurred, but not reported, workers' compensation and health insurance claims payable at June 30, 2019.

The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of debt service fund resources, and compliance with reserve requirements are administered by the SBE and the SBA.

District Revenue Bonds

These bonds are generally referred as "Capital Improvement and Refunding Certificates of Indebtedness, Series 2011" and are authorized by Chapter 71-932, Laws of Florida, Special Acts of 1971, as amended by Chapter 76-489, Laws of Florida, Special Acts of 1976. The pledged pari-mutuel tax revenues are committed until final maturity of the debt on October 1, 2041. Approximately 100 percent of this revenue stream has been pledged in connection with debt service on the revenue bonds.

J. Fund Balance Reporting

In addition to committed and assigned fund balance categories discussed in the Note I.F.10., fund balances may be classified as follows:

- Nonspendable Fund Balance. Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.
- Restricted Fund Balance. Restricted fund balance is the portion of fund balance on which
 constraints have been placed by creditors, grantors, contributors, laws or regulations of other
 governments, constitutional provisions, or enabling legislation. Restricted fund balance
 places the most binding level of constraint on the use of fund balance. The District classifies
 most of its fund balances other than General Fund as restricted, as well as unspent State
 categorical and earmarked educational funding reported in the General Fund, that are legally
 or otherwise restricted.
- <u>Unassigned Fund Balance</u>. The unassigned fund balance is the portion of fund balance that
 is the residual classification for the General Fund. This balance represents amounts that have
 not been assigned to other funds and that have not been restricted, committed, or assigned
 for specific purposes.

IV. JOINT VENTURES AND LEASE AGREEMENTS

A joint venture is a legal entity or other organization that results from a contractual agreement and is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control in which the participants retain: (a) an ongoing financial interest or (b) ongoing financial responsibility. A lease agreement is a contract through which an organization rents an asset for use from its owner for an agreed amount.

The District participates in a joint venture with the Lake-Sumter State College (College) and a lease agreement with The Villages of Lake-Sumter, Inc. Also, the District's major component unit, The Villages Charter School, Inc. (Charter School), leases various school buildings under a noncancellable operating lease agreement with The Villages of Lake-Sumter, Inc. The joint venture and lease agreements are discussed below:

• <u>Joint Venture – Board and College</u>. The Board and the College entered into a land use agreement on November 2, 1993, governing the use of a proposed joint-use facility (adult education and community college facility). This agreement provides, in part, for the appointment of a decision committee composed of individuals appointed by the parties to the agreement. The purpose of the committee is to make any necessary joint decisions regarding the facility. On January 18, 1995, the Board and the College entered into a statement of intent and operating agreement. The land use agreement was made a part of the operating agreement. The operating agreement established agreements between the parties relative to operations, expense proration, and other matters not covered in the land use agreement. The operating agreement further provides that, should the Board decide to vacate the facilities, ownership shall revert to the College with no further obligation on the part of either party. However, if the College desires to

acquire the facility, a 12-month minimum advance notice and mutual agreement between the parties is required. The term of the operating agreement runs concurrently with that of the land use agreement, which is 40 years.

- Lease Agreement Board and The Villages of Lake-Sumter, Inc. The Board entered into a lease agreement on July 1, 2006, and restated the lease on July 1, 2013, with The Villages of Lake-Sumter, Inc. The Board is leasing educational facilities owned by The Villages of Lake-Sumter, Inc. for operation by the Charter School for The Villages Charter Elementary, Middle, and High Schools. The restated lease agreement established an annual rent equal to 33 percent of the 1.5 mill tax base multiplied by the millage rate assessed under Section 1011.71(2), Florida Statutes. The restated lease may include other rent and is for 15 years ending June 30, 2028.
- Lease Agreement Charter School and The Villages of Lake-Sumter, Inc. The lease agreement between the Charter School and The Villages of Lake Sumter, Inc., has a 60-month term with two automatic 60-month extensions ending 2021, which is structured based upon the receipt of the rents paid by the District discussed above. I. BUDGETARY BASIS OF ACCOUNTING

The Board follows procedures established by State statutes and State Board of Education (SBE) rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for governmental fund types in accordance with procedures and time intervals prescribed by law and SBE rules.
- Appropriations are controlled at the object level (e.g. salaries, purchased services, and capital outlay) within each activity (e.g. instruction, student services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
